Claims 11-23 are still rejected under 35 U.S.C. 251 as broadening a reissue application filed outside the two year statutory period for the reasons fully set forth in Paper No. 7, page 2. Applicant's remarks are noted but the instant claim 11 reads on claim 1 of US Patent 5,789,401. The amounts of biotin in the instant claim is 25 microgram to 200 mg per day while the patent '401 claim 1 is 1mg to 200 mg per day. The amounts of chromium in the instant claim is 50 to 1000 micrograms per day while the patent '401 claim 1 is 100 to 10,000 micrograms per day with regard to 35 U.S.C. 251, the last sentence states that "no reissued patent shall be granted enlarging the scope of the claims of the original patent unless applied for within two years from the grant of the original patent." The patent '401 issued August 4, 1998 and the instant application was filed on July 24, 2001. Clearly, this is greater than two years.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
